

THE SPIRIT OF EK

More than most cutlers who served the U.S. fighting men of World War II, John Ek aimed at the useful. He chose standard materials, designed his knives to suit them and the needs of servicemen. He made as many as he could and sold them at affordable prices.

That was the spirit of Ek - do it, do it now, do it right, do it cheap.

Later, in other hands, that functional line of Ek knives expanded, got jazzed up and "marketed". The aluminum or lead rivets became brass screws, the smoothed rock maple became machine shaped, finished, anonymous hardwoods. The blades began to look like everybody's blades.

When Blackjack acquired Ek Commando Knives that trend went right on and has continued. Here in Illinois we have a lot of soundly assembled, high quality knives - but not in the Ek spirit.

Until Now

Now we're going to put the Ek spirit back in these remarkable knives. We're only going to make knives like John Ek made them. We're going to do it now, do it right, do it as cheaply as our modern situation allows. And they're going to look like John Ek made them. Each one will be serial numbered and be "MADE IN AMERICAN, BY AMERICANS, FOR AMERICANS".

And the existing knives marked Ek? As soon as we work through our existing inventory of knives and parts, it's history - gone from here.

We'll be in touch. We intend to make real bargains of those now discontinued knives marked Ek. You can help revive the spirit of Ek by selling them for us.

To facilitate quick and easy disposition of the Ek #3, #4 & #5 blades on hand we will build the following models at substantial savings.

PB-3, PB-3W, PB-4, PB-5, PB-5W
PG-3, PG-3W, PG-4, PG-5, PG-5W

They all now have the same dealer cost of \$35.00 for volume dealer. Suggested retail prices are not lower than \$60/one piece and \$99/two pieces. Please feel free to contact us here at Blackjack anytime at 1-800-500-0062.
