 Overall Length: 17

Oaks, Stags & Gunners

A trio of the finest knives made in the world. Four blade styles to choose from, each with the famous 1 1/2" full-length, full-width tang. The stag grips are rare India stag horns, hand ground to each blade. The Gunners are made from solid walnut, hand chequered for the best grip a knife ever had. The Oaks are vein-dipped solid American Oak, as durable as it is handsome. No other knives are so beautiful and useful at the same time. All knives include an OD web nylon sheath.

Oak Grip shown with the single-edge stiletto (10), double-edged stiletto (18) and double-edged beak (16) blades and standard nylon sheath.

Stag Grip shown with the double-edged stiletto (16), single-edge stiletto (13) and double-edged beak (16) blades and standard nylon sheath.

Gunner Grip shown with the double-edged stiletto (14), single-edge stiletto (13) and double-edged beak (16) blades and standard nylon sheath.

QUALITY FOR OVER 50 YEARS

Since 1961, Ek knives have been known for their quality and durability. In fact, Ek knives are the leading private-purchase military knives in American history. They are built to survive under the toughest use and conditions.

Tested and Proven

All Ek knives have been designed and tested for specific uses by some of the world's best known hunters, survivalists, military men and adventurers. They have also been battle-proven in four wars, from World War II to the Gulf. Their strength and quality are world renown.

More Steel

Ek knives feature more steel than any other knife on the market today. The full-length, full-width tang means they won't let you down when you need them the most.

Original John Ek knives, circa World War II.

Well balanced and strong, HCS 1718 Steel gives you more knife for the money than any production knife is the world today. We guarantee it!

Shaving Sharp

Ek knives are shaving sharp. Literally. Each is hand-honed and tested by our best knifemakers before being delivered to you.

Dedication

At Ek, all our employees are concerned with giving you, our customer, the best knife money can buy. We have a toll free hot line (1-800-668-5575) to answer any questions you have regarding our knives. We want you to feel as good about our knives as we do, and we back all our knives with a 45-day guarantee. Try an Ek knife. If you don't think it's the best knife you can buy for the money, we'll refund every penny. That's how confident we are that you will be pleased.

Hunters

With 50 years of battle-proven experience and the advice of today's top sportsmen, Ek Knife Company is proud to introduce its new Ek Hunters. Handcrafted in four sizes for all field specialties, each blade features the classic Ek full-length, full-width tang for maximum strength and grip-heavy balance so the knife falls into your hand, not out of it. The trailing point blade design gives you a smooth, aggressive cutting edge for ease of use in delicate skinning. The grips are "Stamina-wood," impervious to heat, cold and shock.

Overall Length: 13"

SOG Mark II

The new Ek SOG Mark II combines the Vietnam SOG Berle blade grind with non-slip neoprene rubber grips contained in the Ek "Hand-prior" pattern. The tensionless gripping power combined with the strength of the Ek full-length, full-width tang, makes the SOG Mark II the most efficient update of one of the most classic knives ever created for the field.

Diver-UDT Knife

This knife was specifically designed for Ek by Scott Strong with some of the best features available for the underwater sportsman. Slightly rounded tip allows penetration without risk of puncture. Serrated edge for maximum cutting capacity. Rope cutter allows diver to quickly cut free from fishing lines. Full tang can be used as a hammer or tapping signaling device. Completely water proof and corrosion resistant. Flashed coating to eliminate underwater glare.

Blade Steel: HCS 1718
Stainless
Rc. Hardness: 57-59
Blade Length: 6-7/8"
Overall Length: 13"

Pit Crew™ Knife

The Pit Crew™ knife from Ek can give you the ultimate tool for any situation. Designed for men who work on, in and around cars, this knife is a must for every tool box. The all-black, 300 lb. tensile-strength nylon wrapped grip won't show grease and is designed not to slip out of an oily hand. The high carbon HCS 1718 stainless steel is rust resistant, the strongest, toughest knife blade on the market. Double edged for maximum cutting radius, this knife is made to work when you need it most.

Desert Patrol

Designed to take on the toughest of conditions, and Battle Proven by our troops in the Gulf War, each blade is heat-treated and wrapped with 18 feet of 550 lb. tensile-strength parachute cord. The down-swept crossguard is coated in non-reflective Teflon, which is heat resistant. A tough series of knifecross tested and proven under the toughest of conditions.

Jungle Patrol

From the rice paddies of Southeast Asia to the level ten jungles of Central America, this knife has been through it all. The Ek 550 lb. tensile-strength "Tanogrip" wrapped around 13 inches of solid stainless steel and makes a knife that can be used for dozens of purposes. A popular survival and fighting knife, this group is in a league of their own.

Desert Patrol Parachute Cord Grip shows with the double-edged stiletto, single edge stiletto and double-edged bowie blades and standard spine sheath.

Jungle Patrol Parachute Cord Grip shows with the single-edge stiletto, double-edged stiletto and double-edged bowie blades and standard spine sheath.

Australian Bushknife

Patterned after the famous original Australian Commando made in World War II, this updated version is more rugged and distinctive than the originals. The unique spear-point bowie blade makes it one of the most versatile camp and field knives on the market today. The solid American Walnut "birds-head" grip is contoured perfectly for the hand and finished with a water resistant coating that brings out the natural beauty of the wood. Sheath is saddle-grade hand-sewn leather, with belt loop and military-style bucket.

Ek Steel-HCS 1 1/2" Blades
 1 1/2" Handle 5.09"
 Blade Length 5.31"
 Total Length 11"

Hard Handle Boot Knives

Over seven inches of solid stainless steel goes into every Ek Boot Knife (pictured at left). The perfect size for camping, hiking or self defense. This full-tang design means they are the strongest in their class. Available with white or black micarta, or special walnut, the grip options are as durable as the blade itself. Ek Boot Knives provide the cutting power of a larger knife, at half the size and weight.

Trailblazer

New from Ek Knife Company, the Ek Trailblazer (pictured below) is the next generation of all-purpose field knives. Designed and tested in conjunction with both hunters and survivalists, this classic drop point may be the best field design since the bowie knife! Featuring the classic Ek full-length, full-width tang the Trailblazer is durable as well as functional. The no-squee grips provide non-slip gripping power on the best blade money can buy. Another classic design from the company that has been making quality knives since 1941.

Blade Steel: HCS 1718
Stainless
R: Handgrip: W
Blade Length: 7"

The Pig Sticker and The Pig Bowtie

A classic re-creation of a World War II knife known affectionately by G.I.s as the "Pig Sticker." The Pig Sticker and Pig Bowtie are remarkable knives in terms of quality and value. Solid Maple hardwood grips are riveted to a 3/16" thick piece of high carbon stainless steel. Razor sharp, these durable knives deliver in the most demanding of circumstances.

Blade Steel: HCS 1718
Stainless
R: Handgrip: 37-09
Blade Length: 7"
Overall Length: 11"

Survival/Fighter

A top choice of Military personnel and adventurers from all over the world, the EK SF is designed to pull through when the chips are down and your life may depend on it. In a world full of compromise, this knife does not.

 Stainless
 Rivet Material: 51
 Blade Length: 7"
 Overall Length: 10"

Available in the following Parachute Cord Grips: Desert Camo, Olive Drab, Jungle Camo or Black. Blade styles available are the single edge bonie (R) or the single edge siletto (L).

OSS/SOE Daggers

These World War II clandestine operation knives are authentic, fascinating examples of equipment from the world of intrigue. The blades were sewn behind coat lapels and pants pockets or carried in a business card case where they were undetected until needed. Hand-crafted by the H.G. Long Company, established in 1846 in Sheffield, England and supplier to Allied forces in World War II.

Blade Steel: Carbon

Sleeve Dagger:

Blade Length: 3-1/2"

Overall Length: 7"

Lapel Dagger:

Overall Length: 5"

Thumb Dagger:

Overall Length: 3-1/2"

Card Case Dagger: saddle-grain black leather case for your business cards, conceals the knife.

World War II Fighting Knives

Three classic reproductions of fighting knives that made history. The famous Fairbain-Sykes fighting Knife with the highly diagonally checkered grip. The U. S. Marine Raider Siletto, known as the knife that was "tempered in Hell" by the elite forces in the Pacific known as the Marine Raiders. The British Commando Fighting Knife designed specifically for hand-to-hand combat. The BC-41 includes a solid brass knuckle grip on one of the sharpest blades ever built. All three are rare, quality replicas available only through *Ex Knife* and H.G. Long.

Blade Steel: Carbon

F-5 Fighting Knife:

Blade Length: 7"

Overall Length: 12"

U.S. Marine Raider Siletto:

Blade Length: 7"

Overall Length: 12"

BC-41:

Blade Length: 5-1/2"

Overall Length: 8-1/2"

Blade Steel: HCS 1718 Stainless
Rc Hardness: 57-59
Blade Length: 6.75"
Overall Length: 17"

Micartas

One of the most durable materials is now available with the famous Ek "Hand-print" grip. Affixed with three solid brass crosshead fasteners, each is ergonomically sculpted to fit the hand perfectly. This grip option makes these knives the best you could ever own.

Micarta Grip shown with the double-edged stiletto, single-edged stiletto and double-edged tanto blade and standard nylon sheath.

Blade Steel: HCS 1718 Stainless
Rc Hardness: 57-59
Large Thrower:
Overall Length: 31"
Small Thrower:
Overall Length: 8-1/4"

Throwers

Two sizes to fit the needs of every professional thrower and hunter. Both sizes feature two sets of the classic Ek scallops for a precise grip. The symmetrical design provides exceptional balance for throwing ease. The proven "Arrowhead" point means significant penetration with every bit. The Large Thrower comes as a single in a web belt sheath. The Small Professional Thrower comes in a set of six with a convenient Condara roll bag. Both are regarded as the best throwers made.

CUSTOM WORK AND ACCESSORIES

The different styles available shown above are, from left to right, etching, gold-plating and blackening of the blade.

Ek Multi-Knife Lockable Display

Display up to eight Ek Knives and sheaths, on a counter-top, table or shelf. Store extra knives inside. Hardwood with reverse painted glass. Size: 25" x 18" x 11".

Ek Cap and T-shirt

Whether you're in the field or working in the yard, the Ek Cap is handsome and useful, and it's handwoven by the same firm that makes them for Major League Baseball. Adjustable size in navy.

The 100% cotton Ek T-shirt is light gray with navy blue print on front pocket and back. Back reads "America's Finest Military Knives . . . Battle Proven in Four Wars," above the World War II, Korea, Vietnam and the Gulf service medals. Specify large or extra large.

1-800-468-5575

Personalization Available

We will personalize the blade with two lines of engraving of up to thirty characters each, including punctuation and spaces at a minimal cost.

Ek Individual Knife Display

Custom made of furniture-finished walnut, with sliding glass lid. Suitable for wall, shelf or table display. Specify color of velvet: black, maroon, olive drab or camouflage. Size: 15" x 15-1/2" x 2-3/4".

Ek Deluxe Leather Sheaths

Substitute or add an Ek deluxe leather sheath, in black leather. Retaining straps are removable. Includes 28 additional feet of olive drab parachute cord for lash-down. Handmade in America.

Deluxe and Standard Cordura Tactical Sheaths

Two sheath options for bowie or tanto blades, any handle options.

S.W.A.T.s

Developed in conjunction with several S.W.A.T. units, they are among our most popular knives for all purposes. The Ek 550 lb. kerite-strength S.W.A.T. Black "Paragrip"™ with brass crowsguard has created an effective working knife. (Also available in the boot knife, known as the "Agent Boot Knife.") Tested and proven by law enforcement and rescue personnel—a knife that can save your life!

Overall Length: 13"

Stealth

Developed for the Special Operations community, this all-black, 13" Bowie features a slip-resistant neoprene grip that is tougher than truck tires. Rust resistant and waterproof, this knife has taken all the punishment that Special Operations forces can dish out. The sharpest all-black blade on the market, this knife is great for night operations, undercover work and general use.

The Attack

New from Ek, the "Attack" was inspired by the famous Vietnam-era S.O.G. Bowie. It features Staminwood handles, ergonomically ground with finger grips. It is destined to become a classic.

Blade Steel: HCS 1718
Stainless
Rc Hardness: 57-59
Blade Length: 6-7/8"
Overall Length: 13"

New from Ek for wild water sports... the Ek Ripcord collection. Bright neon handles available on our 7" Boot Knife Blade. Great for kayaking, canoeing or other sports.

Shown from left to right are Desert Camo, Olive Drab, Jungle Camo and S.W.A.T. Black "paragrip" grip options.
