**BATTLE PROVEN
IN FOUR WARS!**

AND NOW, THE GULF!

COMBAT...THE ULTIMATE TEST OF A KNIFE

Congratulations on acquiring an Ek Commando Knife. Since 1941, Ek Knives have proven themselves on the battlefields of World War II, Korea, Vietman and the Gulf. They hold the record for being the leading private-purchase military knives in American history.

This is a no-nonsense fighting knife—strong,

rugged and shaving sharp. It is made with more steel than any other knife of its size and type.

As John Ek said in 1941, "A good knife can save a life." With this philosophy in mind, your Ek Knife is benchmarked to uncompromising standards. When the chips are down, this is a battle-proven knife you can trust.
